APPLICATION TO RUN SLICK TYRES

It is the intention of The Classic Motor Racing Club Race Committee to strictly control the use of non-treaded slick tyres at the Classic and Historic Motor Race.

We urge all entrants to carefully read the relevant sections of the MotorSport NZ Manual to ascertain whether their car is eligible.

If you are unclear about the eligibility of your vehicle to run slick tyres and you feel that it's "Historical relevance" would be enhanced by running on slick tyres then please furnish evidence as to why this would be the case. The inclusion of supporting information (Series Regs., period photos, magazine articles etc) would assist the committee in making sound decisions.

No cars will be allowed to run slick tyres at this event without prior application using this form. All cars approved will be notified with their acceptance and provided with an identifying sticker (in their documentation bag) that must be displayed on the vehicle windscreen or cockpit bodywork.

Entrant Name _____

Car Make _____ Car Model _____ Year _____

MotorSport NZ COD # or FIA HVIF _____

Is this car an original race car, very accurate replica or 'look alike'?

This car (or the one it replicates) originally raced on slick tyres in which series, in which country and in which seasons?

Further information to support my application:

Additional documents can be attached (securely) to this application.

All applications must be returned with your completed entry forms to be guaranteed considered by the Committee.
